

Bristol Safeguarding Adults Board Learning and Development update June 2018

Welcome to our Learning and Development resource update that signposts you to a number of resources which can be used for staff development, team meetings and training days.

SAR Briefings and Case Studies

A Safeguarding Adults Review (SAR) is a multi-agency review process which seeks to determine what relevant agencies and individuals involved could have done differently that could have prevented harm or a death from taking place. The purpose of a SAR is to promote effective learning and improvement, not to apportion blame. All published Bristol SAR's can be found [here](#) together with a number of [case studies](#) that have been developed to assist professionals in their learning and development.

Policies and Procedures

The BSAB has approved the following policies, guidance and protocols, which you can find on our website:

Conferences

All conference information can be found [here](#). This year we are running our 2018 Annual Conference with South Gloucestershire SAB and it is on Adult Exploitation, Mate Crime and Coercive Control.

Training Standards

The Learning and Development Sub Group has been working with other Local SABs in the region to develop a Safeguarding Adults Training Standards document. This is a learning pathway which incorporates national standards, supports local strategic aims and promotes the need for cultural change for agencies who support adults at risk. The learning opportunities outlined are based upon minimum standards and what outcomes specific groups of staff should be capable of achieving.
