Child Sexual and Criminal Exploitation

Guidance for Licensed Premises
What is Child Sexual Exploitation (CSE)?

Child Sexual Exploitation (CSE) is a form of child sexual abuse. It happens where a person or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity
(a) in exchange for something the victim needs or wants, and/or
(b) for the financial advantage or increased status of the perpetrator or facilitator.

The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology.

What is Child Criminal Exploitation (CCE)?

Child Criminal Exploitation occurs where an individual or group takes advantage of a person under the age of 18 and may coerce, manipulate or deceive a child or young person under that age into any activity
(a) in exchange for something the victim needs or wants, and/or
(b) for the financial advantage of the perpetrator or facilitator and/or
(c) through violence or the threat of violence.

The victim may be exploited even if the activity appears consensual (i.e. moving drugs or the proceeds of drugs from one place to another).

Child Criminal exploitation does not always involve physical contact; it can also occur through the use of technology.
How does this affect Licensed Premises?

Licensed Premises are often used as a place to exploit and abuse victims of Child Exploitation. They provide an ideal environment for the grooming, sexual and criminal exploitation of children and young people. As part of the grooming process adults may meet young people or take them to licensed premises, to develop a relationship of trust and make them feel special by giving them ‘treats’ such as meals or alcohol, or by involving them in adult parties. A premise could be misused for this kind of activity by the people who are socialising or working there.

Under the Licensing Act 2003, premises licence holders and designated premises supervisors have a legal responsibility to make sure that children and young people are protected from harm at their premises. It is therefore important that the risk of child exploitation is managed at your premises.

There are a number of criminal offences associated with child exploitation which could have damaging consequences for a hospitality business, including a possibility of prosecution, action being taken against a premises licence and reputational and/or financial damage.

It is the responsibility of premises licence holders and their managers to make sure that suitable control measures are in place at licensed venues for the protection of children from harm.
In what way might Licensed Premises be used for Child Exploitation?

- Adult venues (for example, nightclubs/sexual entertainment venues) that are frequented by children or young people
- Venues where underage drinking takes place
- Premises providing goods or services that can be offered to children as gifts in exchange for sexual favours (for example, free food, drinks or cigarettes; free transport; free access to a venue in exchange for sexual favours)
- Areas of premises that are not supervised or security checked (toilets, beer gardens, play zones)
- Premises where information technology equipment is used (for example, internet access, mobile phones). Social media can be used to groom vulnerable young people and cameras may be used to record or distribute indecent images of children
- Premises providing facilities for private parties, private dancing/entertainment booths or overnight accommodation

REMEMBER – Young People will often try to make themselves look older than they actually are. Always consider the age of the young person even if, at first glance, they may look over 18.
What actions are required to protect the business?

Under the Licensing Act 2003, the ‘due diligence’ defence can be used to protect your business if you can demonstrate that all reasonable steps have been taken to manage risk. Here are some suggested safeguarding measures to help evidence ‘due diligence’ and keep children safe:

- Undertake a written children and young people’s risk assessment and use it to inform your operating policy and staff training
- Staff should be trained to recognise indicators of child exploitation and know how to report concerns
- Staff should be trained to operate an age verification scheme, know what types of identification are acceptable and recognise signs of proxy purchase of alcohol
- Staff training records should be maintained
- Activity of premises should be monitored (for example, using CCTV or a regular patrol)
- Suspicious activity should be reported to the Police (including details such as vehicle registration numbers, description of individuals) and should be recorded in your incident log
- If you, or your staff are in a situation involving the supervision of a vulnerable young person at your premises, it is important to follow a consistent and auditable protocol
- If you have a delivery service (for example hot food) enforce a Code of Conduct to promote good safeguarding when deliveries are made to unaccompanied children
