Welcome to the Trauma Informed Training Directory

This document lists training providers who can offer a range of learning experiences that are all related to Trauma Informed Practice.

Bristol City Council and the Keeping Bristol Safe Partnership (KBSP) are not able to undertake quality assurance these training providers or the course content and any organisation that commissions training will need to undertake their own due diligence.

Introduction

Bristol City Council and partners have set out our ambition to work towards being a trauma informed city in the Bristol One City Plan. We aim to be a city where we can disrupt intergenerational cycles by preventing ACEs, trauma and adversity whilst strengthening resilience in individuals, families and communities, leading to better life outcomes

Trauma-informed practice is an approach which is grounded in the understanding that trauma exposure can impact an individual's neurological, biological, psychological and social development. Being trauma-informed means that organisations will consider that people are more likely than not to have a history of traumatic experiences and that these experiences may impact on their ability to feel safe within or develop trusting relationships with services and their staff, or their ability to live happy and fulfilled lives within their communities.

Trauma-informed practice is not designed to treat trauma-related difficulties. It seeks to remove the barriers that those affected by trauma can experience when accessing care and services by using the principles of trauma-informed practice: safety, trust, choice, collaboration, empowerment and inclusivity.

This training directory lists providers who can offer training relating to trauma informed practice, often bespoke to requirements. To support consistency in practice, partners across BNSSG have worked together to develop a shared Knowledge and Skills Framework and a shared set of principles for trauma informed practice. When commissioning training we would encourage commissioners to ensure alignment with this local approach. The principles, framework, and toolkit are available here:

BNSSG [Principles for Trauma Informed Practice](#)

[Trauma-Informed System Knowledge and Skills Framework](#)

[Trauma-Informed System Knowledge and Skills Framework Implementation Toolkit](#)

If you are interested in commissioning training, please contact the listed organisations directly.

Please note that the KBSP also offers an inter-agency Training Programme, which includes reference to trauma-informed practice in every course to ensure a common thread in all

safeguarding training across the city. More detail is available here: [Welcome to the Keeping Bristol Safe Partnership website. \(bristolsafeguarding.org\)](https://www.bristolsafeguarding.org/)

A range of resources and learning materials about ACEs and trauma informed practice is also available online here:

[Welcome to the Keeping Bristol Safe Partnership website. \(bristolsafeguarding.org\)](https://www.bristolsafeguarding.org/)

Definition of Trauma

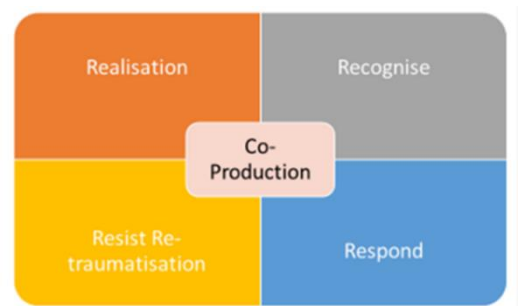

Trauma results from an event, series of events, or set of circumstances that is experienced by an individual as harmful or life threatening. While unique to the individual, generally the experience of trauma can cause lasting adverse effects on mental, physical, social, emotional or spiritual well-being.

[Working definition of trauma-informed practice - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/working-definition-of-trauma-informed-practice) Nov 2022

Service providers:

Realise that trauma can affect individuals, groups and communities

Trauma-informed practice is an approach which is grounded in the understanding that trauma exposure can impact an individual's neurological, biological, psychological and social development.

Recognise the signs, symptoms and widespread impact of trauma

Trauma-informed practice aims to increase practitioners' awareness of how trauma can negatively impact on individuals and communities, and their ability to feel safe or develop trusting relationships with services and staff.

It aims to improve the accessibility and quality of services by creating culturally sensitive, safe services that people trust and want to use. It seeks to prepare practitioners to work in collaboration and partnership with people and empower them to make choices about their health and wellbeing.

Trauma-informed practice acknowledges the need to see beyond an individual's presenting behaviours and to ask, 'What does this person need?' or 'what has happened to this person?' rather than 'What is wrong with this person?'.

Prevent re-traumatisation

It seeks to avoid re-traumatisation which is the re-experiencing of thoughts, feelings or sensations experienced at the time of a traumatic event or circumstance in a person's past. Re-traumatisation is generally triggered by reminders of previous trauma which may or may not be potentially traumatic in themselves.

If you want to be listed as training provider in this catalogue, please contact trauma.informed@bristol.gov.uk.

Training Providers

Anyone working directly with adolescents in any setting including youth workers, job coaches and EET workers, local authority personal advisers, children's home staff, learning mentors and pastoral staff in schools and colleges, and volunteers working in the community.

[OTR Bristol \(Off The Record\)](#)

Description of the training offer (please include if you offer bespoke packages e.g., for school inset days, team meetings etc.)

Trauma informed perspectives: Young Persons Behaviour

What is being communicated by a young person's behaviour?

Behaviour is a form of communication. Join us to explore ways we can understand young people's behaviour by thinking about their mental health, needs, childhood experiences and stage of development. We will be reflecting on ways we can support young people who are dysregulated and what might be contributing to the way they are presenting using a relational approach.

From this training participants will have

- In Depth understanding behaviour
- Explore their own responses to behaviour
- A framework for understanding trauma responses
- Therapeutic strategies to respond to behaviour

OTR can provide an adapted version of this training for school inset days and "lunch and learns" for organisations

Delivered by

Rhea Warner, Health Promotion Manager and Therapist BACP Accredited. Rhea has worked with young people therapeutically for several years starting her professional career at the Bristol Drugs Project. At OTR Rhea and her team promote and provide MH and well-being early intervention across Bristol, North Somerset and South Glos including delivery of MH Champions in schools and Resilience Lab workshops.

Katie Cooper, Head of Diffusion by OTR, Katie delivers training and consultancy to other organisations and professional across Bristol, North Somerset and South Glos around young people's mental health and well-being, crafting safe and playful spaces for people to come together and share and learn.

Costs

£490 for maximum of 20 people or £95 per individual

Appropriate for

Professionals working with young people and parents/carers

OTR Bristol (Off The Record)

Description of the training offer (please include if you offer bespoke packages e.g., for school inset days, team meetings etc.)

Let's Get Angry

This training, which came out of one of OTR's Sports Works projects that worked with young men, looks at anger and working with young people. It invites participants to reflect on their own relationship to anger and how they respond to it in the young people they work with. It provides a trauma-informed framework to understand anger, an empowering way to talk about anger and therapeutic strategies to respond to anger.

From this training participants will:

- Explore their own relationship with anger
- Understand anger as an emotion and our responses to it
- Have therapeutic strategies to respond to anger

Delivered by

Faith Bennett, Engagement Link Worker and is first contact for care experienced young people looking for support with their Mental Health. Throughout her career Faith has worked with young people with ACE and has previously worked with Survive supporting young people who have lived with domestic violence and Barnardo's supporting young people around their self-esteem, self-worth and developing expectations around good healthy relationships and happy safe sexual relationships whatever their orientation.

Jamie Smith, Diffusion Facilitator, Jamie is a trainee psychotherapist and volunteer therapist at OTR and likes using the learnings from that field to inform his approach to facilitating training. Jamie is passionate about the rights of young people in the mental health sector and beyond.

The Relationships Matter Team offer training to support ALL practitioners who work in Bristol that come into direct contact with families where parental couple conflict is known or may be unknown within the family dynamic. Evidence shows that children’s wellbeing and future outcomes are significantly impacted by of frequent, intense, and poorly resolved parental conflict Our approach is that early intervention is of paramount importance so that the parental conflict on children can be reduced before crisis point, where possible. Parental conflict can remain undetected unless practitioners actively engage families in conversation on relationship quality, effective communication skills and managing stress. We support practitioners to develop confidence, knowledge, and skills in starting and maintaining conversations on relationship quality and provide helpful resources for practitioners and families to address parental couple conflict.

Description of the training offer

At Rock Pool we know that living through traumatic events is a common experience that can have a wide range of impacts on health, mental health, education and justice. We believe that by taking a trauma-informed approach we can change society.

Tier 1 ABC -Trauma awareness – This half day course is suitable for everyone and provides an introduction and awareness to the impact of trauma, adverse childhood experiences (ACEs), positive childhood experiences (PCE's), toxic stress and trauma-informed practice. We look at the effect on individuals of these experiences and start to explore strategies to manage these.

- One online closed course for 40 delegates = £1,500+VAT
- Two online closed courses for 80 delegates = £2,500+VAT
- Two in-room direct course for 80 delegates = £4,500+VAT which is delivered by two trainers

Tier 2 ABC - Trauma Responsive Practitioner - This 1-day course is suitable for practitioners who are working with Adults and/or CYP who have experienced trauma on a day-to-day basis In this training we further explore the links between trauma, attachment, behaviour & triggers. We also take the opportunity to look further at trauma-responsive practice and the principles behind this approach. It provides practitioners with some tools to use when working with families to help them in their recovery journey. Finally, we look at Vicarious Trauma and Resilience.

You do not have to attended Tier 1 to attend Tier 2.

- Online open course fee is £200+VAT per delegate.
- Online closed course fee is £2,500+VAT for up to 25 delegates.
- In-room closed course fee is £3,250+VAT for up to 25 delegates

Tier 3 ABC - Enhanced Trauma Practitioner - This 2-day interactive enhanced course is for practitioners who have completed the Tier 2 training and want to develop their trauma-responsive practice and learn more about the impact of trauma on themselves and their clients. It will enable practitioners working with families to develop a more in depth understanding of the impact of trauma have a focus on developing their reflective practice.

- Online closed course fee is £4,500+VAT for up to 25 delegates.
- In-room closed course fee is £6,000+VAT for up to 25 delegates

Tier 4 ABC – Trauma Informed Educators– TIEs is our most comprehensive Trauma-Informed practice training which gives delegates the knowledge and skills to initiate and lead their organisation towards lasting and sustainable Trauma Informed understanding. By providing a thorough understanding of the prevalence and impact of complex and developmental trauma, delegates will have the skills and information to enable them to advocate for Trauma-Informed Practice and advise on approaches to Trauma Informed work within their organisation. This will include:

- the tools required to complete an in-house Trauma Informed audit.
- the steps to becoming Trauma-Informed.
- how to fully support staff and clients following a collective trauma event such as the pandemic.
- input from experts on organisation and cultural change.
- evidence based best practice from international research that works.
- an accredited 2-hour Rock Pool trauma training session which can then be delivered to colleagues.
- how to evidence that they are Trauma Informed to commissioners and stakeholders.

By the end of the training, our aim is to inspire and motivate delegates to facilitate the organisations they represent becoming truly trauma informed.

- Online open course fee is £2,250+VAT per delegate.
- Online closed course fee is £27,000+VAT for up to 16 delegates.
- In-room closed course fee is £30,000+VAT for up to 16 delegates.

Delivered by

St Mungo's

Description of the training offer

'Effectively supporting people who have experienced trauma' - Developed in collaboration with clinical psychologists and psychotherapists, this course provides an introduction to understanding the nature of trauma and how best to support people who have experience of trauma. This session draws on evidence-based practice and makes use of reflective discussion

and experiential activities to provide a foundational knowledge of trauma which can be applied in a range of roles. Session learning outcomes below.

After attending this session, participants will be able to:

- Explain the differences between PTSD and complex trauma
- Describe the concept of attachment and how this can impact emotional regulation, relationships and behaviour
- Summarise how trauma is processed in the brain
- Describe trauma informed approaches to support and what these entail
- Discuss how to apply trauma informed approaches in practice
- Reflect on the importance of workers and volunteers looking after themselves in their roles

Bespoke packages around trauma informed practice also available"
